

AVIOT Smart Home

*Just a gentle touch and
you're on the cloud...*

About AVIOT Smart Home

- *Today technology has become an integral part of people's lives. It has influenced many aspects of daily life. Home automation or sensible home may be delineated as the introduction of technology within the home atmosphere to provide ease, Energy efficiency & protection to its occupants. By using the technology of internet of Things(IOT), the execution of home automation has got an additional advantage.*
- *Aviot smart home dedicates itself to providing solutions in which the needs and expectations of customers are met and exceeded consistently.*
- *Achieving satisfaction by establishing excellent working relationships from concept discussion through to project completion and beyond will be the foundation of Aviot Smart Home long-term success.*
- *Channel partner plays a vital role in taking Aviot Smart Home to end customer in every part of INDIA and subcontinent.*

Residential Solutions

- *At Aviot Smart Home, we transform your house into a automated, intuitive, functional home.*
- *With a smart home, the house takes care of you. Whether it's to simply replace the messy clutters of remotes on your table with an elegant touch-screen master controller that will dim your lights, turn on your A/C, open your curtains with a single touch, to playing your favorite song whenever you walk in, our team of dedicated trained professional system integrators will design a system that meets your personal needs, overall aesthetics and budget.*

Echo & Alexa

Amazon Echo is a hands-free smart speaker that you control using your voice. It connects to Alexa –a cloud based voice service to play music, make calls, check weather, news, set alarms, control smart home devices, and much more.

Echo has powerful speakers that fill the room with immersive 360° omnidirectional audio, and deliver crisp vocals and dynamic bass response. Just ask for a song, artist, or genre from your favourite music services like Amazon Prime Music, Saavn, and Tune In. Using multi-room music, you can even play music across multiple Echo devices at the same time.

Call or message anyone hands-free who also has an Echo device or the Alexa App. Simply ask "Alexa, how do I set up calling?" to get started. Controls lights, plugs, & more with compatible Connected devices from various manufactures.

AVIOT Smart Home Solutions

- **Wireless solutions:**
- **Retrofit Possible**
- **Smart Lighting control**
- **Smart Power Sockets**
- **Smart Curtain control**
- **Security Systems**

SWITCH PANEL

- switch panel with Dimming
- switch panel 3Gang
- Switch panel for the Fan control
- Switch panel for the water heater
- Switch panel for the Curtain

Applicable products:

- All kinds of adjustable light fixtures
- Operating voltage: AC 100 - 240V, 50 / 60HZ
- Load power: 0 ~ 4 00W
- Standby power consumption: ≤ 0.5 W
- Working temperature: 0 ~ 80
- Relative humidity: 10% to 93% (non-condensing)
- Wiring method: Phase , Neutral
- Control: Touch, a mobile control, brightness memory function

Works with Alexa, Echo dot & Google Home

SMART SOCKET

- Without Energy Monitoring
- With Energy Monitoring

Applications:

- Remote access via APP;
- Scheduling;
- Timer;
- Energy monitoring /optional;
- Away mode; support iFTTT,
- Private tooling with slim design;
- Full-PC, V0 Fireproof materials;

Works with Alexa, Echo dot & Google Home

Specification	
Input Voltage	100-240VAC 50HZ
Max. Current Load	10A
Max. Power	2200W
Wi-Fi Standard	2.4GHz 802.11 b/g/n
App Support	Android 4.1 and IOS 8.0 or Higher Version
Operating Temp	-10°C~+50°C
Size	50*47.8mm

- Wi-Fi direct connection, does not require hub for setting.
- Real-time status displays on APP
- Remote control via 3G/4G/Wi-Fi
- Timer/Countdown control are available
- Share with your family to control together
- Control your appliance with voice control or app such as fan, heater, TV, Lights etc
- Voice control support for Alexa and Google Assistant
- Schedule your plug to turn on or off at specific time and save electricity

LED Smart Bulbs

- Remote control via Wi-Fi, 3G/4G
- Real time status display on APP
- Timer Control & group control available
- Abundant colours for your selection
- Built-in different lighting scenes
- Works with Amazon Echo

Specification	
Input Voltage	100-250VAC
LED Power	7W
Wi-Fi Standard	2.4GHz 802.11 b/g/n
CCT	6000K+RGB
LED Light Colour	RGBW
Luminous	600LM
Holder	B22
Working Life	20000H

Wi-Fi RGB LED SMART BULBS

- LED backlight indicator at night
- Real-time status display on APP
- Remote Control via Wi-Fi, 3G/4G
- Works with Amazon Echo
- Share with your family to control together

Controls:

- Colour Control
- Timer Control
- Voice Control
- Remote Control

Features:

- Brightness Control
- Turn On/Off
- RGB Colour
- Timer Function
- Abundant scenes
- Group Control
- Share with Friends

Smart Curtain Control

- Imagine curtains open for you in the morning and close at night or close automatically when the movie starts to play!

WiFi motor for Curtains Specification :

- 24VDC 1.3A Rated Current
- 1.2Nm Rated torque 85 rpm Rated speed
- Radio Receiver built in, DC motor, unique compact & neat motor design
- Perfect for straight soft folds sheer curtains
- Operating the curtain manually in case of power failure.
- Full automatic setting of the limits

Works with Alexa, Echo dot & Google Home

Specification	
Input Voltage	100-240VAC 50/60Hz
Wiring	Live Line & Neutral Line
Curtain Motor Type	AC Motor
Max. Power	800W
Glass Panel	3MM TOUGHENED GLASS
Wi-Fi Standard	2.4GHZ 802.11 b/g/n
Standby consumption	<= 0.5W
App Support	Android 4.1 and IOS 8.0 or Higher Version
Work Life	100,000 times for operation
Operating Temp	-30 °C~+70°C
Size	86*86*34mm
